Patent Examiner
Art Unit 2813

This Office action is in response to applicant's amendment filed on 23 June 2005.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below to correct obvious informalities per MPEP section 1302.04. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the Claims:

In claim 25, line 1, change "layer" to --member--;

In claim 34, line 1, change the claim dependency from "claim 2" to --claim 36--;

In claim 35, line 1, change the claim dependency from "claim 20" to --claim 37--;

and

In claim 37, line 1, change "liquid crystal display device" to --method--.

3. Claims 1-10, 19-25, 34-37 are allowed.

4. The following is an examiner's statement of reasons for allowance:
- Claims 1-10, 34, 36 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a liquid crystal display device that includes a short prevention member on an insulating layer and over an edge of a gate electrode, wherein the short prevention member is between at least two conductive members corresponding to a data line over the insulating layer and thereby prevents short circuiting between the at least two conductive members caused by residual material on the insulating layer; and
 - Claims 19-25, 35, 37 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of fabricating a liquid crystal display device that includes forming a short prevention member on an insulating layer and over an edge of a gate electrode and forming a data line on the insulating layer, wherein the short prevention member is disposed to prevent electric shorts in the data line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen W. Smoot whose telephone number is 571-272-1698. The examiner can normally be reached on M-F (8:00 am to 4:30 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead, Jr. can be reached on 571-272-1702. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8000.
